5 — Evaluation and selection:

5.1 —The selection methods are curricular evaluation and an interview.

5.2 — The evaluation of the scientific and curricular course focuses on the relevance, quality and timeliness:

- a) Of scientific, technological, cultural or artistic production in the last five years, deemed most relevant by the candidate;
- b) Of applied research activities, or based on practical work, developed in the last five years, deemed most impactful by the candidate;

- c) Of knowledge extension and dissemination activities developed in the last five years, namely under the scope of the promotion of culture and scientific practices, deemed most relevant by the candidate;
- d) Of the activities of management of science, technology and innovation programmes, or the experience in observing and monitoring the scientific and technological, or higher education system, in Portugal or abroad.

5.3— The five-year period mentioned above can be extended by the panel, if requested by the candidate, whenever the suspension of scientific activities is reasoned by socially protected grounds like parental leave, long-term serious illness, and other legal situations of unavailability to work.

6 — Curricular Evaluation.

This component of the evaluation is expressed on a numerical scale from 0 to 20 taking into account the following criteria.

6.1 — Curricular evaluation criteria are:

6.1.1 - Criteria for the evaluation of the scientific performance of the last five years considered more relevant by the candidate (14 points):

- Scientific Production: Quality and quantity of scientific production in the area that the Competition is open (books, articles in scientific journals, book chapters, papers presented in conferences) expressed by the number and type of publications, and the recognition given by the scientific community (the quality of the location where it has been published and the references made by other authors);
- Coordination and participation in scientific projects: The quality and quantity of scientific projects coordinated or in which the applicant has participated within the subject area of the Competition, competitively financed through public funds of national or international agencies, or financed by enterprises. The assessment of the quality must take into account the funding obtained, the degree of difficulty of the funding competition, the expert assessment of the projects and the resulting prototypes, particularly if they led to the development of products or services;
- Intervention in scientific community and constitution of scientific teams: Assessing the capacity to intervene in scientific community, particularly by organizing events, being (co-)editor of journals and/or books, participation in the assessment of projects and articles, being invited to give speeches, being a member of academic juris, as well as being recognized through awards or other distinctions and respective impact. The supervision of students involved in doctoral and post-doctoral works will also be evaluated, as well as of students involved in scientific initiation projects.

6.1.2 - Criteria for evaluating extension and knowledge dissemination activities developed over the past five years, in particular in the context of promoting the scientific culture and practices, considered to be of greatest relevance by the candidate (4 points):

- Patents, registration and ownership of rights, elaboration of technical regulation and legislation: Patent authorship and co-authorship, records of ownership of intellectual property rights regarding software, mathematical methods and rules of mental activity. Participation in standardization committees and in the drafting of legislative projects and technical regulation. The evaluation of this criterion should also take into account the resulting economic valuation of patents and intellectual property rights.

- Participation in consulting activities, service projects, partnerships and training activities: Participation in consulting activities. Participation in service projects, namely involving raising institutional funding. Establishing and/or involvement in the establishment of partnerships, namely through protocols and/or collaboration agreements. Participation as a trainer in professional training and/or technological specialization courses aimed at different audiences. The evaluation of this criterion should also take into account the economic valorization of research results achieved, measured by the contracts of technology transfer and development that have resulted and contribution to the creation of spin-off companies.

- Scientific outreach: Participation in scientific and technological dissemination initiatives in the scientific community (for example, organization of congresses and conferences) and for different audiences. Scientific and technological dissemination publications. Presentation of lectures and seminars aimed at the general public.

6.1.3 - Criteria for the evaluation of the activities of program management for science, technology and innovation, or experience in observing and monitoring the scientific and technological system or in higher education, in Portugal or abroad (2 points):

The candidate's participation in activities of scientific, technological and management innovation, or on the observation and monitoring of science and technology or system of higher education, in Portugal or abroad.

6.2 — The score obtained in the curricular evaluation method is expressed in numeric scale of 0 to 20, considering the valuation up to two decimal places.

6.3 — The jury deliberates by vote justified according to the criteria of evaluation, no abstentions are allowed.

6.4 — The classification of each candidate is obtained by averaging the scores of each of the elements of the jury. In case of a tie, the decision of the tie-breaker shall be the responsibility of the president of the jury.

6.5 — Once the Curricular Evaluation is completed, the top 3 candidates are approved for the next evaluation method as indicated in point 5.1.

6.6 — Candidates who are not ranked in the top 3 positions are excluded from the public notice.

7 — Interview:

7.1 — The interview will have a duration of 30 minutes.

7.2 — The Interview evaluation is expressed on a numerical scale of 0 to 20, taking into account the candidate's scientific knowledge and ability to communicate, as well as the answers to the questions put by the jury and their development perspectives in the unit for which you are running.

7.3 — The jury deliberates by roll call voting, not permitting abstentions.

7.4 — The classification of each candidate is also obtained by the average of the scores of the members of the jury.

8 — Ordering of candidates

8.1 — The final score of each candidate is obtained through an weighted average, by assigning a weighting factor of 90% to the Curricular Evaluation note and a weighting factor of 10% to the Interview note.

In case of a tie, the decision of the tie-breaker shall be the responsibility of the president of the jury.

9 — Participation of the parties and decision:

9.1 — The final ordering project is communicated to candidates by e-mail for the purpose of their hearing.

9.2 — At the hearing of the interested parties, the jury appreciates the allegations offered and approves the final ordering list of candidates.

10 — Publication of Competition Notice

In addition to being published in Series 2 of the “Diário da República” the present notice is also published in:

- a) The Public Employment Pool (BEP);
- b) The website of the Foundation for Science and Technology, I.P., in Portuguese and English;
- c) The website of the University of Aveiro, in Portuguese and English;
- d) In a national newspaper.

11 — This tender is exclusively destined to fill this specific vacancy and can be terminated at any time until approval of final candidate list, expiring with the respective occupation of said vacancy.

12 — In compliance with paragraph h) of Article 9 of the Constitution of the Portuguese Republic, the Government, as the employing entity, actively promotes a policy of equal opportunities between men and women in access to employment and professional advancement, scrupulously taking measures to avoid any form of discrimination.

16 of November of 2021 — The Rector, *Professor Doutor Paulo Jorge dos Santos Gonçalves Ferreira*.
